

# MOBILETY portable processing made easy

## MOBILETY Database Manager

### MOBILEDB

**MOBILEDB** is a command and control console providing import, export, and editing tools for the **MOBILETY** databases.

The screenshot displays the MOBILETY Database Manager application window. At the top, there are buttons for 'Import Server', 'Export Server', 'Import DTF', 'Export DTF', and 'Transfer File'. Below these is a 'Server DB' dropdown menu set to 'DTF' and a 'DTF - MerchRec02' label. The main area contains a table with the following columns: SkuNumber, TaxPriceType, RegularPrice, DeptClass, Description, PromoFlag, and PromoPriceOrPerDo... The table lists various items, with 'BOOTS' (SkuNumber 400000360676) highlighted in blue. To the right of the table is a sidebar titled 'Server Database' containing a list of database controls such as 'DeptClassControl', 'ValidateData5a', 'Employee', and 'PriceControl'. At the bottom, there is a pagination control showing 'Page: 1 of Total Pages 1' and a 'Display All' button. The status bar at the very bottom indicates 'Getting Record # 21' and the date 'Wednesday, January 31, 2007 8:17 AM'.
