MOBILETY certifies the OPTICON PHL7000

MOBILETY is a powerful, configurable, user-friendly package designed for mobile users in a variety of markets: Distribution, Field Mobile, Grocery, Health Care, Hospitality, and Retail. See www.pss-products.com for more information.

“We are confident that **MOBILETY** is a perfect compliment to Opticon’s new WinCE products. As an ISV (Independent Software Vendor), we expect to add value throughout Opticon’s Sales Channels,” states Vince Spinelli, *pss* Business Solutions

The PHL 7000 Series Advanced Mobile Terminal is specially designed to be flexible and modular to meet the variable needs of the end user. The PHL 7000 Series has communications options including Bluetooth™, WiFi (802.11), and GSM/GPRS (cellular) protocols, and has options for Opticon’s world renowned laser engine and CMOS 2D Imager. Additionally, keypad, handle, and a myriad of accessories make the PHL 7000 Series Advanced Mobile Terminal the right tool for the job.

ABOUT pss

Point of Sale System Services, Inc., headquartered in Shirley, MA, is a privately held company specializing in **MOBILETY**. *pss* is a complete solution provider committed to maximizing the customer’s technology life cycle through progressive migration strategy and long-term product commitment. *pss* provides complete solutions including POS hardware and software, handheld devices and applications, service bureau facilities, and a full complement of hardware maintenance options.

ABOUT OPTICON

Opticon is a worldwide family of companies consisting of OPTOELECTRONICS Co., Ltd. (Japan), Opticon Inc. (North America), and Opticon Sensors Europe BV. Founded in 1976, Opticon is one of the earliest pioneers and manufacturers of automatic identification technologies including CCD, laser and 2D imaging barcode scanners, and mobile data collection terminals. In 1984, Opticon Inc. opened its North American operation serving a wide range of clients in the United States, Canada, and Mexico. With 17 offices worldwide, Opticon is poised to aggressively meet the technology needs of our customers and partners around the globe. Please visit www.OpticonUSA.com.
